## THE TABERNACLE MEETING.

#### Religious Movement Launched Last Week Gives Promise of Being Record-Breaker.

It has been a long time since a religious movement in this city and county has attracted so much attention in so short a space of time as has the revival services inaugurated here in a specially designed and constructed tabernacle by the Rev. Mordecai Hamm and his corps of assitants.

Rev. Mr. Hamm, who is a noted revivalist and has conducted numerous successful meetings all over the country, came to Paris practically unknown, save for what was known in an indirect way of his work along re-

ligious lines.

The immense tabernacle on Seventh Street, in the rear of the residence of Mrs. Russell Mann, was built entirely by volunteer labor under the personal supervision of Mr. Baumgartel one of Mr. Hamm's aides, and is estimated to have a seating capacity of four thousand. The building is its accoustic properties all that could

Rev. Hamm's "style" seems to one ries a conviction of the great earnestness of the man behind it. He has a well-modulated voice of great carrying power, and can be distinctly heard all over the auditorium.

The nightly services have been well attended from the initial meeting, and the crowds seem to increase ing was filled to its utmost. They came on foot and in all manner of conveyances, and seemed to be glad

## RESUMES OLD SCHEDULE.

Beginning Sunday morning at 7:15 o'clock, the city car will resume the old schedule. The car will start on the North side of the Court House, on Bank Row, and will run to the in-tersection of the Hume & Bedford and Bethlehem pikes, at McGinnis' store. The same fare, 5 cents, will continue in effect. The above schedule will not be maintained on the regular interurban cars, the five cent fare applying to points only in the city limits, which end at the Clintonville pike, on the through-to-Lex-

ington cars. For the past several months the city car has run only to the Clintonville pike and back to the interurban station on High Street. This arrangement proved quite an inconvenience to the people in South Paris, owing to the fact that the original schedule of the city car made the starting point from the rear of the Court House and out to the Bethlehem pike on the five cent fare, and the people had become so accustomed to this arrangement that many homes were built in the suburbs on the strength of the five cent car fare.

The return to the old schedule was made possible after a conference in Paris Friday between City Attorney W. H. Whitley and Mr. J. D. Sallee, of Lexington, General Freight Agent and Superintendent of other cities for the Bluegrass Traction Company.

PARIS, KY., Sept. 21. Editor Bourbon News:-

While in Lexington, Sunday, I met an old friend, who is a pronounced Prohibitionist and he asked me what was Bourbon going to do in the elec-tion on the 28th. I told him that from the present outlook it seemed to me that she was going to vote to keep Lexington were trying to secure the entire trade of all the surrounding towns, and in fact had already securtowns, and in fact had already secur-ed the cream of the trade of Paris, Georgetown, Nicholasville, Versailles and the intermediate territory be-

tween these towns. I told him that it was well known that the merchants of Lexington were furnishing financial assistance to the "dry" leaders in Paris in an effort to vote Paris dry, and his ans-

swer was: "Well, that's business."

As he said, it certainly is business.
But it is also "business," and business of far more importance, that Bourbon County money should be spent at home. The business man who votes "dry" has no excuse in the world for Tucson, Arizona, formerly Miss Josie complaining about hard times if he himself votes to make it so .

GERMANY PAVING WAY FOR PARLEY.

United States should undertake to elicit from Great Britain, France and der which the allies would make sides.

The suggestion was made by the Imperial Chancellor, Von Bethmann-Hollweg, to Ambassador Gerard at Berlin, as a result of an inquiry sent by the American Government to learn whether Emperor William was desirous of discussing peace, as Count Von Bernstorff, the German Ambassador, and Oscar Straus recently had reported.

No reply was made by Emperor William himself nor did the Imperial Chancellor indicate whether or not he spoke on behalf of his monarch. Ambassador Gerard cabled President Wilson the Chancellor's remarks from recollection, which was substantially as follows:

"Germany was appreciative of the American Government's interest and offer of services in trying to make peace. Germany did not want war, had it forced on her. Even if she defeats France, she must likewise vanish Great Britain and Russia, as all three have made an agreement not to make peace except by common con-

"Similarly, England has announced through Premier Asquith and her diplomatists and newspapers that she intended to fight to the limit of her endurance. In view of that determination on the part of Great Britain, the United States ought to get proposals of peace from the allies.

"Germany could accept only a lasting peace, one that would make her people secure against future attacks. To accept mediation now would be interpreted by the allies as a sign of weakness on the part of Germany and would be misunderstood by the German people, who, having made great sacrifices, had the right to demand guarantees of security.'

The above is all that Ambassador Gerard communicated as to his conversation. He added only the brief comment that he, himself, thought the way might possibly be opened to

mediation. President Wilson referred to the Chancellor's conversation as noncommital and incidental to the acknowledgment of the American Government's inquiry. The President in-dicated that he rather expected a reply to the inquiry to be sent event-ually from the Emperor himself, though he realized that the Imperial Chancellor may have consulted his monarch by telegraph before talking informally with the American Ambas-

President Wilson took no action as a result of the message, waiting to hear from Ambassador Gerard whether anything of a more formal character could be obtained by him which the United States might communicate to Great Britain, France and Russia. It was understood that neither the British or French Ambassadors, who are in Washington, were informed officially or unofficially by Secretary Bryan of the conversation between the Imperial German Chancellor and Ambassador Gerard.

WILSON SEES LITTLE HOPE FOR PEACE..

WASHINGTON, Sept. 18.—President Wilson sees little prospect of peace in Europe reflected in the unofficial exchanges which American Ambassadors have been conducting with Germany, Great Britain, France and Russia.

This was leared to-day at the White House following a careful study of the message which Ambassador Gerard cabled giving his recollections of an informal conversation with the

Imperial German Chancellor. Until something more tangible and more definite in the way of overtures comes from the belligerants the Pres ident feels that his hands are virtual

ICAN SOCIETY. WASHINGTON, Sept. 18.—President Wilson to-day declined to receive Horace L. Brand, of Chicago, who come to present messages from several German-American organizations protesting against the charges of atrocities made by the Belgian commission against the German armies.

The President took the position that he had already refused to permit natives of other belligerent countries living in the United States to discuss the war with him and that the messages of the German-Americans were not of the same nature as those brought by the Belgian commissioners. He planned to write a letter to Mr. Brand explaining that his recent statement on neutrality addressed to the American people should apply equally to all living in America.

WILSON REPLIES TO PROTEST

OF KAISER. WASHINGTON, Sept. 16.—President Wilson to-day re message recently received from Emperor William protesting against the alleged use by the allied armies of dum-dum bullets. He said that he had read the communication with the gravest concern, but that it would be unwise and premature for the United States to express any final judgment in the controversy.

The message was almost identical with the speech made by the President to the Belgian commission which protested against alleged German atrocities.

A cablegram replying to the protest of President Poincare of France, who charged that the Germans were using dum-dum bullets was also prepared.

It was not made public, but was known to follow closely the text of the President's message to Emperor William.

South America.

Women Fare Still Worse as Few Occupations Are Open to Them and Wages Are Extremely Poor-Nearly All Illiterate.

Entre Rios, Argentine, S. A.—Some time ago a young Brazilian attending the University of Illinois told me that in many portions of his country fourfifths of the people could neither read nor write. One finds this state of things throughout South America, though in some countries, like Uruguay, the percentage of illiterate is not so great. The women are scarcely schooled at all. Women in South America are far down on life's scale, among the cheap things of no importance. They are so regarded by the men and so regard themselves, says Katherine Reynolds in Chicago News. Truly the poor opinion that these women have of themselves almost takes one's breath away.

Not long ago I was talking to my cook. She is a native of Uruguay, and unlike the vast majority of domestics can read and write. One day I found her plowing her way through "Don Quixote." That interested me and we taiked. I found her exceptionally bright and of a thoughtful turn of mind. I drew her on and was surprised to hear her express very sane ideas on South American politics and economic conditions. The girl is an indifferent cook, but she would make a splendid teacher of political economy.

She gave me much interesting information and told me many significant anecdotes bearing on the life of these people. But what astounded me was her closing remark.

"That, senora," she said, "is only what I think and know and is of course of no importance whatever, for I am most certainly only a woman, not a patriot. And a woman cannot, of course, know anything of these things."

So it seems that only men are patriots here. National patriotic holidays are not women's holidays. Woman suffrage is in these lands only a faint, ridiculous sort of far off echo. Indeed, if you mentioned it even the women would look at you with a smile of pity for your idiocy in even dreaming that such a thing could be.

In all these countries the top layer of society is overeducated. This social cream, taking much of its style and temper and education from England, hour of 11 o'clock, a. m., on apes English aristocracy and scorns the costumes of a Parisienne, are very often startling looking creatures to American eyes. They, too, are fitted only for society, and know as yet no way in which to earn a living. The sort of industrial education.

The beef and mutton are really dear if you consider their poor quality, the careless cutting and filthy delivery. The animal whose flesh you are forced to buy is probably killed the night before or that very same morning. When you come to this bit of knowledge you no longer wonder that the meat is tough and flavorless and you know, too, why so many of these meat eating natives have stomach trouble.

Apropos of the bad effects of business on the health, a millionaire contractor, said in a Y. M. C. Serious Waste of Money.

Because of the improper drying of corn a vast amount of money is wasted in the payment of freight. It is estimated that 436,682 tons of water are shipped with corn every year. This would fill 14,556 freight cars of 60,000 pounds capacity, making a train more than 110 miles long.

List of Noted Local and National Men Who Were Distillers.

Were the Fergusons, Clays. Alexanders, Massies, Buckners, et al., Wrong?

(Advertisement.) It's clearly conceded by history that George Washington was a brewer, Thomas Jefferson was a distiller, Abraham Lincoln owned a retail license, President Wilson has said this month that the liquor business must be O. K.'d, that one fourth of the government revenue was raised by the liquor business.

Our forefathers in Bourbon county did not believe that the liquor business was wrong, as we note in the History of Bourbon County that our most prominent forefathers were whisky dealers and manufacturers. Among them might be mentioned: Mr. W. W. Massie, James K. Ford, Jno. Trundle, G. S. White, Wm. Tarr, George W. Bowen, Benjamine Bedford, W. H. Thomas, Samuel Clay, Jacob Spears, Capt. John Hamilton, Robert Owen, Wm. Davie, George Pugh, James A. Miller, Henry Hibler, Charlton Alexander, Wm. Ferguson, W. T. Buckner, Geo. M. Bedford, Thomas Duvall, Geo. W. Wyatt, H. C. Clay, Jacob Wilson, John Ewalt, J S. Shawhan and Samuel Ewalt.

These men were the backbone of Bourbon County and highly respected and substantial citizens. Many of their children and grandchildren of to-day are enjoying the profits de God's footstool. It grieves me to rived from the manufacture of whisky: Are they going to the polls but ill-advised brothers have seen September 28 and repudiate the business of their forefathers? If the business is disgraceful now it was to breed discontent, turmoil and bitthen. We think it is a legitimate business now and always has been. Vote "YES."

PARIS, KY., Sept. 21, '14. Editor BOURBON NEWS: Since the opening of the present

campaign conducted by what is known as the "wet and "dry" forces, I have been an interested but silent witness. I have read the many articles on both sides which have appeared from time to time in the Paris papers, and I have studied both sides of this most important question with great care.

I have almost passed the alloted three score years and ten, and with the exception of a very brief interval it has been spent in God's flower garden, the county of Bourbon. I love the State of Kentucky, and its people, who are the greatest on know that some of my well-meaning fit to bring this argument before the people at this time, for it never fails terness among people, and very often brother is arrayed against brother, with wounds being inflicted that only vears can soothe and heal.

Personally I am opposed to the excessive use of liquor. At one time in my life I was what might be called a 'victim," to the habit, but through the help of God and my own efforts, I conquered it. I have not tasted a drop in over twenty years, except in case of sickness.

But I am in no wise opposed to the moderate use of liquor. I am in favor of high license, and the well regulated saloon. But what interests me more than any other side of this question is the subject of taxation. I am a property owner in a small way, and during my long residence in ♦ Paris I have seen taxation increased last Friday's edition of the • year by year, slowly, gradually, but Cincinnati Times-Star, and ful- • sure, until it has become a burden • to the man with ordinary means, and a positive hardship to the poor. I am opposed to oppressive taxation in all lits forms.

I am informed that the city of Paris and County of Bourbon together derive over twenty thousand dollars from the licensed liquor traffic. The total taxes which the Government derives from the State of Kentucky for the manufacture and sale of liquor is an enormous sum.

The President has called for an immediate raise of \$100,000,000 in rev-• enue, and it has been suggested by • the Ways and Means Committee in • charge of the bill co place a heavy

tax on liquer. If this is done and liquor is voted out of the State, then who can fortell but that a land tax will be assessed for the up-keep of the government. This great amount of money has got to be raised, and if whisky is voted out of the various States, something else will have to be taxed to meet the dieficiency. This is not a time • for experiment, but a time for serious

and conservative thought. If your taxes are to be increased, or the assessed tax valuation of your property increased, with all kinds of foodstuff going higher and higher each day, how can the already taxburdened man meet his necessary

obligations? Upon whose shoulders will that burden of taxation fall? Does it fall The prohibitionists, in his zeal for upon the shoulders of the employed "foreign" speaker who comes and tells you how to vote? No. He is thereby he can gain votes. Y., addressed a cappacity audience in the interest of the local option campaign. At 4 o'clock, day. following the adjournment of the meeting at the court house, Rev. Mordecai Hamm, the evenngelist, addressed a large crowd of men only at the Tabernacle on Seventh street on the social evil of the day. At night one of the largest crowds of the present engagement greeted the speaker. The musical program was well rendered by a large choir under the direction of Choirister Reamsey.

## NO SERVICES SUNDAY.

There was no preaching services at vices at the Tabernacle which has been erected on East Seventh street | dent. for the Rev. M. F. Hamm and his assistants, at 10:45 a. m. and 7:30 p. m. Sunday school was held as usual at all the churches at 9:30 p. m., and communion services was observed at the Christian Church immediately after the Sunday school exercises were over.

The Epworth League met at the Methodist Church at 6:45 p. m. at the Methodist Church. The Industrial Slavery in the Light of Two Standards." The leader was Mr. F. W. Galloway.

Sunday afternoon at 4 o'clock, Mr. Hamm delivered an address at the Tabernacle to men only, which was heard by a large and interested au-dience. An augmented choir, under the direction of Mr. Ramsey, is an especial feature of these meetings.

California Woman Not Over-Enthusiastic Over Her First Impressions of Gibraltar.

Some one who was seeing Watkins off the other day made the inevitable remark about visiting "America first." Some one is sure to say that sooner or later, within a week of one's sailing for foreign parts; if not while one is packing, he or she says it on the deck of the boat just before the whistle blows.

That is how it was with Watkins, who was going to spend a summer on the Island of Sark, and who had never

been to California. "No," confessed Watkins, "I haven't seen the-er-what do you call it-Golden Gate? I haven't seen the Golwith some California people. They told me a good deal about the California climate and how beautiful the country was.

"And," Watkins continued, dreamily, "the woman said something that never forgot. We were going Price 50c, at all dealers. Don't through the Straits of Gibraltar, and, simply ask for a kidney remedy—get of course, the whole passenger list through the Straits of Gibraltar, and, was out on deck, staring at the old rock. Our boat didn't stop at Gibraltar-we just went slowly through the straits, and looked out and up.

> "The woman from California was beside me, leaning against the rail. looking at Gibraltar, and Algeciras, and beyond to the headlands of Spain. She was mightily impressed by the rock.

"'It's magnificent!' she said. 'It's wonderful! And what do you think? The old-fashioned girl who used to that I am back home in the Yosemite ers.

Real Things in Life.

When I was a little boy, I used to get a great deal of satisfaction out of stroking a kitten or a puppy, or crushing a lilac leaf-bud for its spring fragrance, or smelling newly-turned soil, or tasting the sharp acid of a grape tendril, or feeling the green coolness of the skin of a frog. I could pore for long minutes over a lump of puddingstone, a bean-seedling, a chrysalis, a knot in a joist in the attic. There was a curious contentment to be found in these things. My pockets were always full of shells and stones, twigs and bugs; my room in the attic, of Indian relics, fragments of ore, birds' eggs. oak-galls, dry seeds and sea-weeds, bottled spiders, butterflies on corks. All the lessons of the schoolroom seemed of no consequence compared with things so full of intimacy, of friendliness .- Robert M. Gay, in Atlantic.

## "Let Us Do It Ourselves."

Once the philanthropist set up a drinking fountain; now there is good city water laid on everywhere. In olden times kind-hearted people provided "ragged schools" for the waifs of the alleys; now there are public schools for all. Once the benevolent created funds to provide meals for indigent prisoners in the jails, but John Sunday, Sept. Howard induced the state to feed its prisoners. Time was when the defectives were cared for by charitable groups; now the state provides for these unfortunates. There will always be opportunity for private philanthropy to render signal services; but a democratic society with a proper spirit of independence will not allow itself the large private donor, but will take as its maxim, "Let us do it ourselves." -Edward A. Ross, in the Atlantic.

Martyrs to Vice. The martyrs to vice far exceed the martyrs to virtue, both in endurance and in number. So blinded are we to our passions that we suffer more to insure perdition than salvation. Religion does not forbid the rational enjoyments of life as sternly as avarice forbids them. She does not require such sacrifices of ease or renunciations of quiet as does pride. She does not murder sleep like dissipation; nor health like intemperance; nor scatter wealth like extravagance or gambling. She does not embitter life like discord; nor shorten it like dueling; nor impose more vigilance than suspicion; stop-over privileges. For further in-more anxiety than selfishness: nor formation call on or address more anxiety than selfishness; nor half as many mortifications as vanity.

Hats the Cause of Baldness. Baldness is a matter of headgear. The doctors are fairly well agreed upon that. Men grow bald more frequently than women because of the hats they wear. It is true that women wear bigger and often heavier hats than men, but they attach them to their hair and not to their scalps, hence they permit ventilation and do not constrict the veins, while men's hats, with their hard, tight-fitting brims not only permit no air to enter, but constrict the blood vessels all around the head.

It is funny that a girl can be as graceful as a nymph when she is dancing and yet get og a street car like a cow.

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—

all exert the weakening influence that invites consumption. -To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood and upbuilds strength to resist

tuberculosis. Scott's Emulsion is nature's

# FOUND HER INTERESTING MAN

Young Lady Who Had Built Castles in the Air Somewhat Rudely Brought Down to Earth.

Friends of a Worcester young woman are forcing her to cubmit to considerable good-natured joking about her acquaintance with a youth whom she described as "the most interesting man she ever met." The girl was introduced to him at a recent social gathering and before they had talked together long he had her attentively listening to an account of his travels throughout the country, and his experiences in many different cities. He also alluded to his college life, and before they parted the girl had the idea that she had become acquainted with the son of a millionaire, or some dignitary.

She talked freely about him to her acquaintances, although not mentioning him by name. One day while with a young woman friend, she passed him on the street, and was surprised to see him bow to her companion.

"Do you know him?" asked the girl, very much surprised.

"Sure," the other replied. "He used to be our paper boy. He is now trying for a job on the police force."

The girl was surprised into admitting that he was "the interesting man," and what followed indicated it would be many days before she heard the ast of it.-Worcester Post.

## FOR ELIMINATION OF SMOKE

Firing Must Be Systematic and Properly Done If Best Results Are to Be Attained.

Smoke is caused by failure to burn the combustible gases that arise when fuel is exposed to the flame. The editor of Power describes these gases as 'a complex mixture of various hydrocarbons, from some of which carbon separates on cooling in the form of lampblack, or soot. The smokier fuels also give off tarry vapors, which condense and help to gather the carbon particles into flakes or 'smuts.'

"For the burning of these gases as they are evolved from the coal, three conditions must exist: Air must be supplied above the fuel bed, the temperature must be high enough to insure ignition, and there must be time or space for combustion before the mixing currents of gas and air are cooled by flowing into or among the tubes of the boiler."

Firing coal in large quanties produces so much gas that neither air supply nor combustion space is great enough for its burning. Therefore coal should be put on in small quantities at frequent intervals.

## Leaning Tower of Pisa.

This celebrated bell-tower is situated in the city of Pisa, Italy, and was built during the twelfth century by the German architect, William of Innspruck. It is cylindrical in shape, 50 marble, and consists of seven stories, divided by rows of columns. The top, which is surmounted by a flat roof and an open gallery, commanding a splendid view of the surrounding country is reached by 300 steps. The tower was not originally intended to lean but the foundation settled more on one side than on the other until it reached the present inclination, which it has maintained with scarcely any perceptible increase for hundreds of years. The upper part of the structure was part the inclination; and the grand chime of bells, seven in number, of which the largest alone weighs 12,000 pounds, is mounted with reference to counteract this fault still further.

## Insatiable.

George A. Birmingham (Canon Hannay), the versatile Irish clergyman, playwright and novelist, was talking to a New York reporter about the American business man.

"I'll tell you a story," he said, which hits off the American business man well.

"A wife, still young, turned from the window of her sumptuous nineteenthstory apartment and said to her husband:

"'George, ten years ago you promyou'd retire from business, and then | 25c at your Druggist. we'd travel and enjoy life.' "Here she began to cry.

"'You've got your million now!' she sobbed. 'Why do you still keep on

working?' "George, as he hurried into his over-

coat, growled: "'Ah, that's just like you-never satisfied!""

## ACUTE INDIGESTION.

"I was annoyed for over a year by attacks of acute indigestion, followed feet in diameter, 172 feet high, and by constipation," writes Mrs. M. J. leans about fourteen feet out of the perpendicular. It is entirely of white marble and consists of seven stories.

Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our drpggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two bottles of them I can eat heartily without any bad effects." Sold by all dealers.

BIBLE CLASS TRIP.

The visit of the Men's Bible Class of the Christian Church of this city to the Bible Class in Mt. Sterling, Sunday, was a most enjoyable affair, over 100 members of the class availing themselves of the opportunity offered of visiting the capital of Montgomery. The party made the trip in twenty automobiles, leaving Paris about 7 p. m. They speak in the highest terms of the hospitality extended them by the members of the Hazelrigg Bible Class and the citizens of Mt. Sterling generally.
